

AI IN THE EXAM ROOM | POCKET REFERENCE

THE OPENING QUESTION

"Before we start—did you look this up online or ask any AI about it?"

FOLLOW-UP:

- "What about that worried you?"
- "What didn't AI address?"
- "What do YOU think is going on?"

KEY FRAMEWORKS

10 BILLION SENSORS

You have $\sim 10^{12}$ sensory neurons. AI has zero.

What you detect: color, breathing, sweat, tenderness, odor, affect

VELOCIRAPTOR TEST

"AI gave probabilities. Your body gave signals. Trust your signals."

Use for: patient dismissing instinct, parent concern, vague "something's wrong"

RESPONSE SCRIPTS

✓ **RIGHT:** "ChatGPT got this right. Here's what my exam confirms..."

~ **PARTIAL:** "AI was on track. Let me add what I'm finding..."

✗ **WRONG:** "AI missed something. Here's what I'm detecting..."

⚠ **ANXIETY:** "Each question made AI suggest worse things. Let me tell you what I see..."

SMART PHRASES

. **AIOK** AI confirmed

. **AICORRECT** AI corrected

. **AIDELAY** AI caused delay

. **AINONE** No AI use

TRACK MONTHLY:

% using AI • AI accuracy rate • AI-influenced delays

AI informs. You decide. • AI has no sensors. You have 10 billion. • AI has no liability. You have it all. • Integrate, don't compete.

PATIENT TEACHING SCRIPTS

VALIDATE PATIENT EFFORT:

"You used AI exactly right—research, then verification."

EXPLAIN THE GAP:

"AI for education, physician for diagnosis."

FOR PARENTS:

"Your instinct matters. No AI has watched your child grow."

POSITIONING:

"I'm not anti-technology. I'm pro-appropriate-technology."

INTELLIGENT HUMILITY

General AI (ChatGPT) trained on:

Peer-reviewed journals + Reddit + blogs + SEO garbage

Content-controlled AI (TheDude) trained on:

Validated, curated medical content only

HALLUCINATION: AI fabricates with full confidence

Watch for: invented studies, fake citations, confident wrong answers

WHEN AI HAS CAUSED HARM

1. DO NOT LECTURE

Patient is already sick and scared

2. TREAT FIRST

Medical care before teaching

3. DOCUMENT FACTUALLY

No judgment in documentation

4. TEACH WHEN STABLE

Explain what AI missed and why

5. CONSIDER SYSTEMS

Why did patient rely on AI vs. calling?
